Gender Medals Sports Athletes NOCs Countries

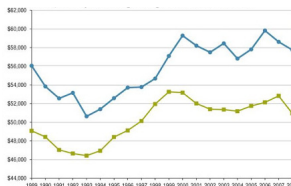

## Project Summary

Lorem Ipsum è un testo segnaposto utilizzato nel settore della tipografia e della stampa. Lorem Ipsum è considerato il testo segnaposto standard sin dal sedicesimo secolo, quando un anonimo tipografo prese una cassetta di caratteri e li assemblò per preparare un testo campione. È sopravvissuto non solo a più di cinque secoli, ma anche al passaggio alla videoimpaginazione, pervenendoci sostanzialmente inalterato. Fu reso popolare, negli anni '60, con la diffusione dei fogli di caratteri trasferibili "Letraset", che contenevano passaggi del Lorem Ipsum, e più recentemente da software di impaginazione come Aldus PageMaker, che includeva versioni del Lorem Ipsum.

Sports

Athletes  
NOCs  
Countries

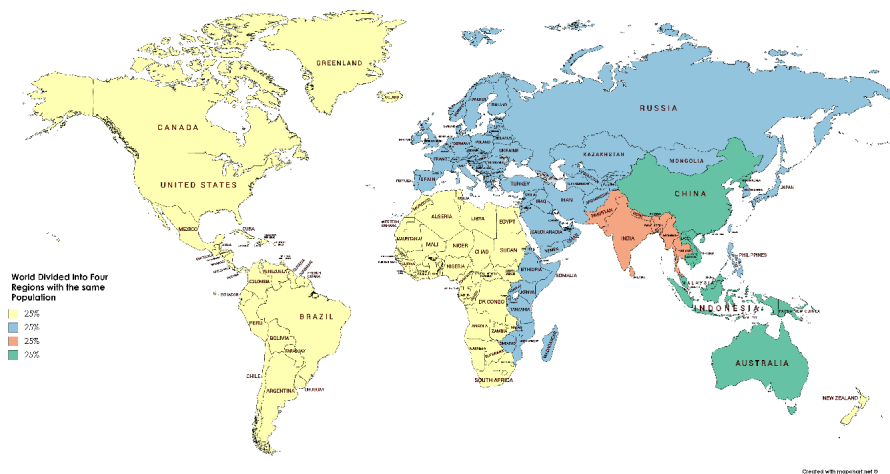

## Gender

How has the gender make up of athletes changed over time?

possibly a bubble chart with size of blue bubble representing all male athletes per year, pink for women  
possibly add slider to allow user to move year forward and backward

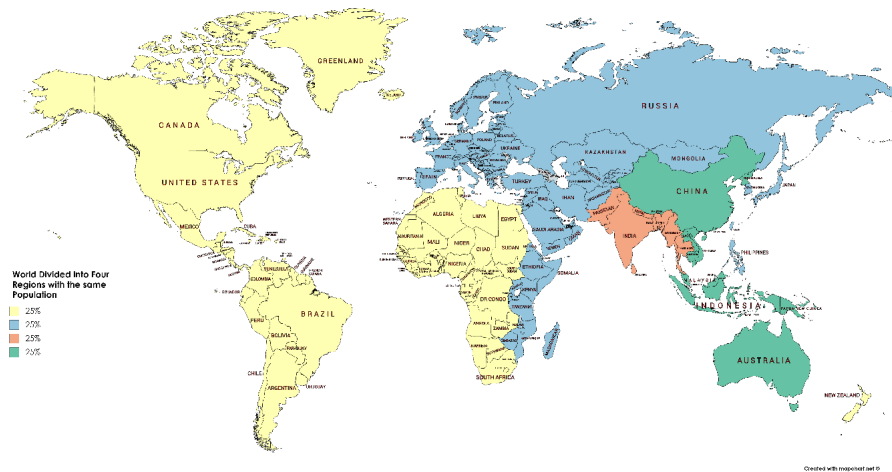

Has the gender make up changed per country over time?

how would we show over time AND per country?  
maybe instead it's total (unique per season) athletes over the entire 120 years?  
would each country have a number for male and female? or just total

## Medals

What is the break out of gold/total medals won by country?

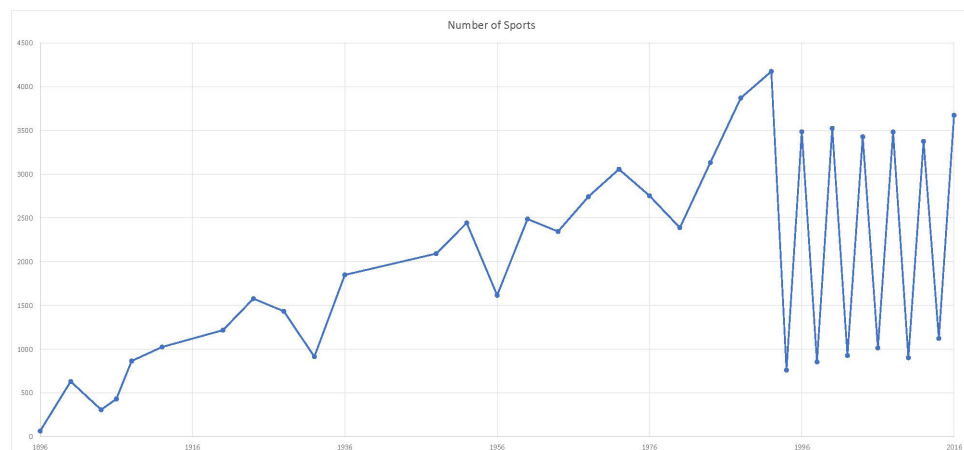

map to have markers on each country that was represented over the last 120 years  
marker hover/mouseover/pop up to include total medal count (Bronze, Silver & Gold) per country over the 120 years  
try to use an image of a medal as the marker?

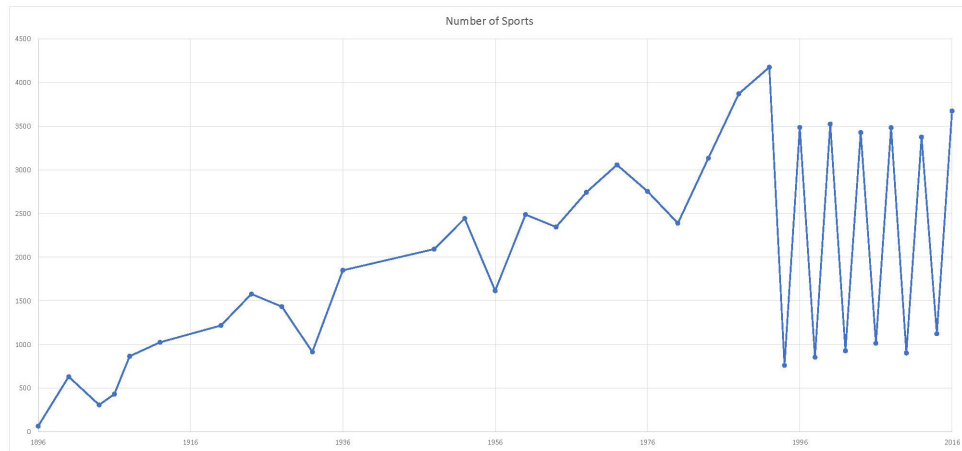

## Sports

Have the number of sports represented at the Olympics changed over time?

### Winter Sports

## Summer Sports

our other questions:

Is there a difference in the age make up of Olympic athletes over time?

Which countries have the tallest/shortest athletes? (for fun!)

how many Olympics does the average athlete compete in?

which male and which female athlete have competed in the most Olympics?

who has competed in the most individual events?

have any athletes completed in both summer and winter? if so, how many?

## 120 Years of Olympic Athlete History

[illegible]

question: do we display raw data or our cleaned and joined data?

## National Olympic Committees

[illegible]

## Latitude and Longitude for every country

[illegible]
